Seminar on:

FIDIC Contracts - Pitfalls in Application under Shari'ah and UAE Laws

26 June 2024 | 20 Dhu al-Hijja 1445

6:00 PM - 8:00 PM (Dubai Time)

Background:

Construction contracts, particularly FIDIC contracts, are undergoing significant developments. These contracts play a critical role in defining the obligations and rights of all parties involved, both during the project's execution and upon its completion. They govern financial dues, the recovery of letters of guarantee, and more. Understanding the most common mistakes committed by parties when using these contracts and their implications on mutual rights and obligations is essential.

Objective:

Dr. Kamal Malas will address these topics, engaging with engineers, legal professionals, and other stakeholders. The discussion will explore these issues in the context of Islamic Sharia and the current laws of the United Arab Emirates.

Keynote Speaker:
Dr. Kamal Adnan Malas

Dr. Kamal Adnan Malas is a Professional Engineer, Courts Expert, and International Arbitrator & Mediator. He is a recognized reviewer of the 2017 FIDIC Yellow Book and a member of the ICC's MENA Region Arab Arbitrators Group. Listed as an Engineering Expert with the UAE Ministry of Justice and Dubai Courts, he heads Arbitration and Legal Affairs Committee at the Arab Union for Investments and Real Estate Development. With a B.Sc. in Civil Engineering, a BA, MS in Law, and a PhD in Dispute Resolution, he has handled over 102 arbitration cases worth more than USD 2 billion across various jurisdictions.

Topics:

- Background of Federation International Des Ingenieurs Conseils (FIDIC)
- Risks in Construction Contracts
- FIDIC Red Book: Conditions of Contract for Works of Civil Engineering Construction
- The Pitfalls in Application of FIDIC Red Book 1987

Participants:

- Engineers, Contractors, & Construction Professionals
- Legal and Shari'ah Professionals within Construction Field
- Law Firms, Companies, and Legal Consulting Offices with a Focus on Construction & Engineering
